

Hirun Hettigoda Fiery Dragons Test Cases

1. Board format is represented with volcano cards, dragon cards and caves in desired format
2. Dragon cards are represented facing down with a general image for all 16 cards
3. Dragon cards are flipped when clicked representing a unique creature type as text
4. Cards cannot be manually flipped back down
5. When exiting and restarting the game the dragon cards randomise
6. Cave cards are represented with a unique creature type
7. When exiting and restarting the game the cave cards also randomise

Missed out on:

- Representing the creature types on the volcano cards just has a “card no.”
- Dragon tokens not yet displayed on the board
